**TOPIC: SEXUAL ASSAULT/CHILD ABUSE INVESTIGATION
TECHNIQUES & PROCEDURES**

TASK DESCRIPTION

As part of their normal course of duties as criminal investigators, officers are required to investigate thoroughly offences relating to sexual assault and child abuse.

INSTRUCTOR CENTRED STATEMENT

The purpose of this session is outlined to the student the need to know the relevant sections of criminal law and the supported statutes, case law and recommended procedures that are to be followed in the course of their investigations.

SUGGESTED METHOD OF INSTRUCTION

Lecture/developmental supported by case studies, syndicate assignments, small and large group discussions and visual aids.

TEACHING POINTS

- drafting informations
- statute law in relation to sexual offences/sexual assaults
- issue of consent
- case law - Khan & K.G.B. applications
- O'Connor applications
- Seaboyer applications
- dangerous offender applications
- fear of sexual activity
- order or prohibition - sexual offender
- power to delay parole
- exclusion of the public
- definition of sexual assault
- relevant Crown policies

OBJECTIVES

Given two ninety-minute classroom sessions involving case studies, handouts, discussion groups and syndicate assignments, the learner will:

- identify the facts in issue necessary for the offences of sexual assault
- explain the different evidentiary procedural applications that will effect sexual assault investigations
- demonstrate via case study discussions the policies concerning the procedures for child abuse investigations
