FROM CRISIS TO COORDINATION:

An Integrated Community response to a Multi-victim Child Sexual Abuse Crisis

<<<<Opening Message>>>>

Out of a Crisis of child sexual abuse, our community has created hope. Out of our story we have created this document. We hope it will help professionals and community leaders be better prepared to cope with a multi-victim, multi-offender crisis, should it ever occur. But more importantly, we hope readers will be inspired to work together in agencies and communities across the country to meet the needs of all sexually abused children. We encourage each and every one of you to do your part to prevent this type of crisis from ever happening in your community. Together let's bring the tragedy of child sexual abuse to an end in Canada

Table of Contents

Part 1 - Introduction

- What is this document all about?
- What are the aims of this document?
- What is a multi-victim, multi-offender child sexual abuse case?
- Why Prescott?
- The challenges and the MVMO cases
