

INQUIRY PROCESS RECOMMENDATIONS

1. The Ministry of the Attorney General should create a permanent secretariat or repository of administrative expertise and best practices related to public inquiries to provide more comprehensive operational support and guidance to commissioners and administrative staff.
2. The Ministry of the Attorney General should provide administrative and technical assistance for the production of the final report of a commission of inquiry, thereby enabling the commission to focus on the content. This would include identifying and engaging contractors for translation, design, typesetting, printing, and production in electronic format.
